

MEL CARLO IGUIS

Software Engineer (Frontend / Full Stack)

Taguig, Philippines | 0995 847 0384 | melcarlo.iguis@gmail.com | [linkedin.com/in/mel-carlo-iguis](https://www.linkedin.com/in/mel-carlo-iguis)

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable web applications, frontend systems, REST APIs, and deployment workflows in enterprise and client-facing environments. Skilled in React, Next.js, Node.js, Java Spring Boot, CI/CD, and cloud-based Linux deployments, with a strong focus on performance, reliability, and developer productivity.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL

Frontend: React, Next.js, Redux, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, Java Spring Boot, Django, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Cloud / DevOps: AWS, Docker, GitHub Actions, Linux, Nginx

Tools: Git, Postman, Jira, Confluence, Grafana

Concepts: Microservices, CI/CD, API Design, Authentication, Testing, Agile/Scrum

EXPERIENCE

Software Engineer

Samsung R&D Philippines | Taguig, Philippines

03/2023 – Present

- Develop and maintain enterprise-grade web applications and frontend features for internal and product-related systems using React, TypeScript, and Next.js.
- Build reusable and scalable UI components and shared frontend modules to improve development consistency and reduce duplication across projects.
- Maintain CI/CD pipelines by implementing post-deployment automated validation workflows and Playwright-based test scripts, improving release confidence and reducing manual QA effort.
- Proposed and helped establish a development preview pipeline that deploys temporary sandbox builds to S3 in the DEV environment, accelerating feature review, testing, and stakeholder feedback.

Full Stack Developer

Teravibe | Makati, Philippines

12/2021 – 02/2023

- Developed and maintained client-facing web applications and company websites using React and modern frontend technologies.
- Built and maintained REST APIs using Node.js and Express to support application features and backend integrations.
- Contributed to backend migration efforts by transitioning API services from Node.js to Django based on project requirements.
- Improved website and application performance through frontend optimization, code cleanup, and reusable UI structures.
- Supported multiple client accounts and delivered custom feature updates based on business requirements.

EDUCATION

Garcia College of Technology

Bachelor of Science in Information Technology

Aklan, Philippines | 2014 – 2018
